

# Checklist for your NSF Broader Impact Statement

The logo for the Center for Teaching and Learning (CTL) at Columbia University, featuring the letters 'CTL' in white on a blue triangular background.

A good broader impact plan will have:

- Explicit objectives*
- Stated relationship to scientific research*
- Understanding of intended audience*
- Specific and feasible implementation plans*
- Connectivity to existing networks*
- Evaluation plan- did you accomplish objectives? How will you measure or evaluate accomplishment?*
