Workshops

Drop in for 1-2 hours! We serve food and refreshments at lunchtime workshops.

EXPLORE THE ESSENTIALS

Essentials of Teaching and Learning
Refresh your knowledge of the basics: from syllabus design to grading and rubrics. *Designed for faculty.*

Course Management and Collaboration Tools
Learn how to use Canvas and other educational tools for course management and collaboration.

Assessing Student Learning
Improve students' knowledge, skills, and abilities, and show evidence of your teaching success. *Designed for faculty.*

Inclusive Teaching
Affirm Columbia's commitment to diversity and inclusion by learning new strategies for implementing inclusive teaching practices. *Designed for faculty.*

DEEPEN YOUR SKILLS

Slow Teaching, Deep Learning
Experience how mindfulness can improve student engagement, enhance active learning, and stimulate inquiry.

RewirED
Harness the power of technology to make learning environments as effective and engaging as possible.

Engaged Scholarship
Discover opportunities and resources for developing engaging service-learning experiences. *Designed for faculty.*

Collaborative Learning
Explore group learning activities and the digital technologies that support them. *Designed for graduate students.*

Using Case Study Method
Encourage your students to use critical thinking and problem-solving skills with the case study method.

CTLgrads Workshops and Learning Communities
Document evidence of your teaching experiences and prepare for a teaching career after graduate school. *Designed for graduate students.*

CONNECT WITH YOUR PEERS

Teachers' Lounge
Join your peers for pizza and conversation as you explore how to effectively cultivate silence in the classroom. *Designed for graduate students.*

Community Conversations
Look out for special community conversations on timely topics relevant to the teaching community at Columbia.

Many CTL programs and events are specifically designed for faculty or graduate student instructors. Any Columbia instructor or staff member is welcome to attend if they meet the requirements and space allows.

Seminars

Commit to a series of connected modules, workshops, and discussion groups with a community of supportive colleauges. By application only.

**Digital Literacy
for Instructional Practices Seminar**
Do you teach digital skills? Discover ways to better integrate teaching digital skills into the intellectual work of your course.

Reflective Teaching Seminar
Improve your teaching by exploring your pedagogical practices and beliefs about teaching and learning.

Institutes

Devote 1-3 days solely to your teaching with hands-on guidance from CTL staff. By application only.

Course Redesign Institute
Design or redesign an effective, learner-centered course. *Designed for faculty.*

Active Learning Institute
Transform your course into an environment for participatory learning. *Designed for faculty.*

CUMC Summer Institute
Learn effective teaching and learning strategies in health sciences education. *Designed for faculty.*

Innovative Teaching Summer Institute
Explore instructional technologies and pedagogical approaches with a community of graduate student instructors. *Designed for graduate students.*

2017 Celebration of Teaching and Learning Symposium

SAVE THE DATE!

Sign up for the CTL mailing list at **bit.ly/ctlsignup** to receive an invitation and updates this semester.

The Office of the Provost welcomes the Columbia teaching and learning community to Low Memorial Library on **Monday, March 6**, to celebrate the innovative efforts of faculty and graduate students in transforming their courses and pedagogies, including the work of recent recipients of the Provost's Hybrid Learning Course Redesign and Delivery grant.

Many CTL programs and events are specifically designed for faculty or graduate student instructors.
Any Columbia instructor or staff member is welcome to attend if they meet the requirements and space allows.
